TITLE:

5

ADVERTISING DEVICE FOR PRODUCE AND CANDY VENDORS

SPECIFICATION

FIELD OF THE INVENTION

[0001] The present invention relates to a wearable display device for showing food and candy.

10

BACKGROUND OF THE INVENTION

[0002] The present application claims priority to co-pending Provisional U.S. Patent Application Serial No 60/414,887 filed October 1, 2002.

15

[0003] Kids love candy. Candy sellers need to show off their product with a wearable device. Fruit sellers need to show off their cherries, plums and kiwi fruit with a wearable device. People have needed earrings which show off edible products, particularly wearable earrings that light up.

SUMMARY OF THE INVENTION

20

[0004] The invention is an advertising device for produce vendors or candy vendors comprising: at least one earring clip with a back side and front side for engaging a non-pierced ear; at least one hook secured to the earring clip; at least one edible food
